Description:

Welcome to S kyrup Country Club which is an extraordinary resort with pristine nature and a gorgeous view of lake Finja, outside Hässleholm, Skåne (the southernmost county in Sweden surrounded by the Baltic Sea and the Öresund Strait next to Denmark).

In no less than 1,5 hour drive from Copenhagen International Airport, at this solid estate you will find an old manor building from the life and times of the landed gentry. It is designed in natural stone, a non-man-made, all-natural material straight from Mother Earth. It envelopes a patio with an open garden and stables furnished with 20 horse boxes and two saddle chambers, a flushing cistern, washroom for horse blankets, a machine hall, lying hall and longing hall for ponies.

In the residential premises you will uncover a restaurant kitchen with dining room, sleeping quarters, meeting rooms and a solitary apartment.

The entire area is 38 hectares of arable and meadow land, pasture and forest.

In its vicinity you will discover several larger horse facilities, the most famous being Magic Park where a prominent family in the distinguished Swedish equestrian elite runs their business.

Right next door is the exquisite golf course at Skyrups Golfklubb just a stone throw from the shore of the lake.

The Finjasjöleden Trail ploughs through the area and accommodates the desires of the more casual as well as picky, yet leisure, hiker.
